Invitation for Bid
GSA-055-21
CAMERA SYSTEM UPGRADE & REPAIR SERVER SYSTEM

Questions received from: G4s Security System 09/03/21

Question 1: Request for a sit assessment.

Response: Site Visit was conducted on 9/8/21 at 10:00am at Dept. of Youth Affairs

Question 2: Request for additional RFI period after the site assessment.

Response:

Question 3: Request for two (2) weeks extension on the bid submittal deadline.

Response:

Question 4: Request for the required delivery date to extend to 90 Days.

Response: Required delivery date remains the same.

Question 5: Is the funding source local or federal?

Response: Federal Funding

Question 6: Must NDAA requirements be met?

Response: Yes

Question 7: Is conformance to the "Buyer American Act" a requirement for this IFB?

Response: Yes

1. Must comply with the 2 C.F.R. 200.322 on Domestic Products Preference: As appropriated and to the extent consistent with law, there is a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subcontracts, including all purchase orders for work or products under this subaward. For purposes of the section: "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

2. Must comply with the 2 C.F.R. 200.322 on Prohibition on certain Telecommunications and video surveillance services and equipment: For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, Contractor and all subcontractors are prohibited from procuring, obtaining, or purchasing: 1) equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliated of such entities); 2) video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliated of such entities); 3) telecommunications or video surveillance services provided by such entities or using such equipment; and 4) telecommunications or video surveillance equipment or services produced or provided by an entity that the secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Page 35 of 36 Surveillance server system specifications:

A. Remote access viewing capabilities.

Question 8: Will DYA supply the broadband connection for remote access viewing capabilities.

Response: Yes

Question 9: Remote viewing may not be supported by correctional institution codes. If that is confirmed, will DYA certify an exemption or conform to the codes?

Response: Yes, DYA will conform to correctional institution codes.

Question 10: Please clarify and define the requirements to have both IP channels (currently using 1 digital and 1 analog) in order to view.

Response: Current system was installed by G4s

Questions received from: Megabyte 09/08/21

Clarification after site assessment

Question 1: What correctional institutional codes do we need to follow? If there a document that be provided in regards to this?

Response: No, documents available. The only requirement we expect is the equipment is tamper-proof and will not cause bodily harm.

Question 2: Do we also have to remove and dispose of the APC 1000va UPS that was next to the old surveillance server system?

Response: Removal only, DYA will follow local laws in the disposal of government property.

Question 3: Is there any data currently on the desktop computers at the D-unit, E-unit, and Intake that was used to view the current video surveillance system?

Response: All three computers just had the two programs, Luxriot and iRas, to be able to view footage. All computers are inoperable at this time.

Question 4: What models of TRENDnet cameras does DYA currently have on hand?

Response: Please see attached pictures.

Question 5: Do the PTZ cameras have to meet the exact specifications provided in the bid (such as the lens parameters listed for the PTZ cameras)?

Response: Yes. These were specifications of our current PTZ and we are satisfied with the functionality of these cameras. Unless the vendors specifications are an improvement to what is listed, we would prefer the bid be followed.

Question 6: How many of these cameras require audio and where would they need to be mounted?

Response: 18 indoor cameras would require audio. This number may be adjusted to allow for storage room on the hard drives or privacy concerns

Question 7: Who would need remote access to view the system?

Response: Director, Deputy Director, and Superintendent. This is subject to change

Question 8: It was discussed that 2 weeks to a month's worth of recording would be required but the bid requests 3 months worth of recording, is this subject to change?

Response: No. Please provide recommendations on the proposal.

Questions received from: Megabyte 09/08/21

Clarification after site assessment

Question 1: Is the NVR located upstairs in the room visited or is it going to be located at the intake area?

Response: Intake

Question 2: What does "base station" refer to (located on page 33 – specifications item 8)?

Response: Base station is NVR.

Question 3: What will the 2 monitors be plugged into at intake (located on page 33 – spec item 11)?

Response: The NVR

Questions 4: What are the models of the Trendnet cameras (located on page 33 – spec. item 12):

Response: Refer to "Amendment #1"
